Low FODMAP Minestrone

Adapted from A Little Bit Yummy, Serves 4

Ingredients

- 80g (1 cup) leek (green tips only)
- 240g (2 large) carrot
- 160g (1 small) potatoes
- 50g (1 stick of) celery
- 1 tbsp garlic infused oil
- A drizzle of olive oil
- 60g (2 cups of) spinach
- 160g (1 medium) courgette (zucchini)
- 400g plain crushed/chopped tomatoes (canned)
- 500ml (2 cups of) low FODMAP vegetable stock
- 310ml (1 & 1/4 cups of) boiling water
- 9g (1/2 cup) fresh basil (lightly packed)
- 75g (1 cup) gluten free pasta (spirals, shells)
- 200g (1 cup) canned chickpeas in brine (drained)

Method

1. Dice the potato and carrot, finely slice the celery, and finely chop the green leek tips. Place a large saucepan over medium heat. Add the garlic infused oil, carrot, potato, celery and green leek tips. Saute gently for 15 to 20 minutes until the ingredients start to soften. Add a drizzle of olive oil and turn down the heat if needed (you want the vegetables soft but not too brown).You want to let the rice paper sit in the water for 10-20 seconds until it becomes pliable.
2. While the veggies soften, dice the courgette, and thinly slice the spinach leaves. Make the low FODMAP stock if needed. Drain and rinse the chickpeas, before draining again.
3. Then add the canned tomatoes, low FODMAP stock, hot water, diced courgette, spinach leaves, and chickpeas. Bring to the boil and allow to simmer on medium-low heat for 10 minutes.
4. Measure out the pasta and roughly chop the basil (leaves and stalks). Reserve any small basil leaves for garnish.
5. Add the pasta and basil to the soup. Cook the pasta in the soup according to packet directions, or until the pasta is cooked (if you are using the soup for lunches, under cook the pasta by 1 to 2 minutes to stop it going mushy). If the soup is too thick, add a little bit of water.
6. Season with salt and pepper. Garnish with baby basil leaves and add a drizzle of garlic infused oil and a sprinkle of parmesan cheese (if desired).

Mini Sweet Potato & Carrot Casseroles

Adapted from A Little Bit Yummy, Serves 6

Ingredients

Sweet Potato & Carrot Mash

- 420 g (15 oz) sweet potato (skin on)
- 840 g (30 oz) carrot (peeled & cubed)
- 2 tbsp olive oil
- Few grinds of salt & pepper
- 1 large pinch of ground cinnamon
- 1 tbsp pure maple syrup
- 1 tbsp dairy free spread (olive oil spread or butter)

Pumpkin Seed Topping

- 80 g (3 oz)pumpkin seeds (or pecans)
- 1 tbsp olive oil
- 1 tbsp brown sugar
- 1 tbsp pure maple syrup
- Pinch of ground nutmeg
- Pinch of ground cinnamon
- Pinch of ground ginger
- Pinch of salt
- 1 tbsp dairy free spread (olive oil spread or butter)

Method

Prepare the Sweet Potato & Carrot Smash

1. Preheat the oven to 200ºC (400ºF) bake function. Line two roasting trays with baking paper. Cut the sweet potato into halves (if you are using a very large sweet potato cut it into quarters). Peel and cut the carrot into small cubes. Place the carrots into one roasting tray and the sweet potato halves into another. Drizzle the sweet potato and carrot in olive oil and season lightly with salt and pepper. Toss well until everything is evenly covered in oil. Place the roasting trays into the oven.On rimmed baking sheet, drizzle oil over bottom.
2. Roast the carrot for about 45 to 55 minutes until soft and golden. You know the carrot is done once you can mash it easily using a fork. Turn the carrots once or twice during cooking. Once cooked, remove from oven and set aside.
3. Depending on the size of your sweet potatoes they might take between 30 to 40 minutes to roast. Remove from the oven once they are very soft to touch and can be mashed using a fork.
4. Reduce oven heat to 180ºC (350ºF).
5. Peel the sweet potatoes and then add to a large mixing bowl along with the roasted carrots. Roughly mash. Then add a pinch of salt and pepper, the ground cinnamon, maple syrup and dairy free spread (olive oil spread or butter). Mash again until smooth (you can cheat by using a food processor to puree the mash). Taste and adjust seasonings as needed.

Make the Pumpkin Seed Topping

1. Heat a large frypan over medium heat. Add the pumpkin seeds (or chopped pecans) and toast for 3 to 5 minutes, stirring frequently, until golden. If you see any smoke or if they are browning too quickly turn down the heat to low.
2. After a few minutes add the olive oil, brown sugar, and maple syrup. Add a pinch of nutmeg, ground ginger, cinnamon, and salt. Cook for 1 to 2 minutes, stirring frequently until the pumpkin seeds (or pecans) are coated. Remove from heat and place to one side.
3. Divide the mashed sweet potato and carrot mixture evenly into the ramekins (grease them first) or into 20cm by 20cm (8 inch by 8 inch) dish (this size dish for 6 serves). Top with the toasted pumpkin seed mixture and some cubed dairy free spread (olive oil spread or butter).
4. Bake for 10 to 15 minutes, until warm and fragrant. Rest for a few minutes, then serve.

Fast and Healthy Stir-fried Vegetables

- 1/4 cup canola oil
- 2 tbsp garlic infused oil
- 2 tsp sesame oil
- 1 tbsp ginger, finely minced
- Red chilli, sliced finely (optional)
- 12 cups ~1.2kg vegetables, here are some suggestions:

1. 6 cups of prepared green vegetables: E.g. Gai lan* (Chinese broccoli), bok choy*, wombok, beans*, green capsicum (bell pepper)*, broccoli heads*, choy sum (gai lin), chrysanthemum greens*, kale, okra*, green onion tops, spinach
2. 3 cups of prepared coloured vegetables; e.g. red capsicum, carrot, Jap pumpkin, canned baby corn

- 1/3 cup soy sauce
- 1 tbsp cider vinegar
- 1 bunch herbs like Thai basil and/or coriander leaves
- 1 tbsp toasted sesame seeds, to serve

*These vegetables have an 'upper limit', so check the serve size in our Monash FODMAP app to be sure you don't use too much.

Method

1. Prepare all the vegetables. Roughly chop the greens and if leafy keep the stems separate and chop in half for faster cooking. Finely slice the hard vegetables e.g. carrots into long diagonals. Rip the oyster mushrooms into lengths.
2. Heat the oils in a wok or large pot and quickly fry the ginger (and chillies if using) for about 1 minute.
3. Add the harder vegetables in the order that they take longest to cook e.g. carrots and turnip first. Repeatedly stir and cover for a few minutes. Add the green veg stems and repeat then finally add the green vegetables and stir and cover for about a minute.
4. Add the soy sauce and vinegar and stir and cover until the greens have wilted.
5. Remove from the heat and stir through the herb leaves and serve immediately on its own or with brown rice or noodles. Garnish with toasted sesame seeds.

- ¾ cup almond meal (72 grams)
- 1/4 cup oat flour (30 grams)
- ¼ cup cornmeal (34 grams)
- 2 tbsp sugar
- 1 tsp baking powder
- ¼ tsp salt
- 2 large eggs
- 1 tsp vanilla extract
- ¼ tsp almond extract (optional)
- 3 to 4 drops red food coloring (optional)
- Cooking spray

Method

1. In a liquid measuring cup or medium bowl, combine lemon juice and milk; set aside. In a large bowl, whisk together the almond meal, oat flour, cornmeal, sugar, baking powder and salt.
2. In medium bowl, whisk the eggs. Add vanilla, almond if using, and milk mixture; whisk until combined. Add to bowl with dry ingredients and stir until just moistened. Stir in food coloring if using. Rest 3 to 5 minutes to allow dry ingredients to hydrate.
3. Heat a nonstick skillet or griddle to just above medium heat. Place 4 to 5 strawberry slices close together in the skillet. Pour about ¼ cup batter over strawberries. Cook until small bubbles appear and bottom side is golden brown, 1 to 2 minutes. Flip and cook until opposite side is golden, about 1 minute.
4. Repeat with remaining strawberries and batter, adjusting heat as needed so pancakes don't brown too quickly. You can serve as you go, or transfer pancakes to a baking sheet and keep warm in a 175 F (80 C) oven. To serve with warm jam, heat jam in a microwave-safe bowl until it drips off a spoon, 60 to 90 seconds. Garnish with additional strawberries if desired.

- 2 1/4 cups,1 large peeled swede (rutabaga)
- 2 1/4 cups, 2 large peeled waxy potatoes
- 3 3/4 cups peeled Jap pumpkin
- 2 1/4 cups, 2 large peeled carrots

Method

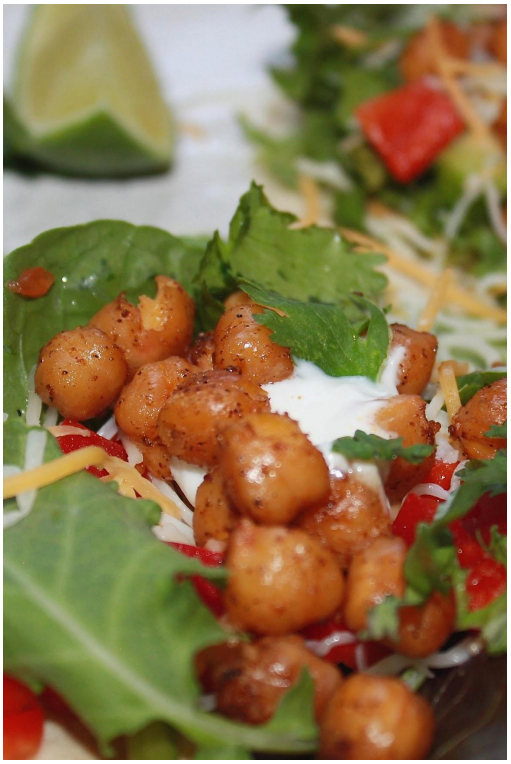

1. Heat the oil in a stock pot and sauté the leek leaves until they start to caramelise.
2. Add the water, pepper and tomatoes and bring to the boil.
3. Add the vegetables in order of their cooking time. That is, add the ones that take the longest to cook first. So add swedes and simmer for 5 minutes before adding potatoes, carrot and pumpkin and cook for a further 10 minutes. Then add cabbage, red capsicum and chickpeas, cook again for about 5 minutes and lastly add silverbeet and parsley and simmer for a further 2 minutes.

Tips

- This recipe uses lots of fresh vegetables! However many other low FODMAP veggies can be substituted like parsnip, turnip, spinach, kale, eggplant and zucchinis. Remember to check out the serving sizes recommended in our Monash app and use veggies that are seasonal and cheap!
- Be adventurous with your herbs and aromatics. Instead or as well as parsley use chives, sage, basil or whatever you fancy
- Why not add some extra spice during the cooking? For example, chilli, paprika, cumin, turmeric or garam masala
- Instead of salt use umami packed soy sauce
- Canned lentils can be substituted for canned chickpeas
- Ask your local fruit and vegetable shop for leek leaves as they often cut them off and discard them
- Freeze the left overs for a quick and healthy meal or snack
- For extra protein, add cooked meat, fish or tofu to your soup

- 1 tsp guar gum (or xanthan gum) (Otherwise use 1 tsp chia seeds in 2 tsp hot water)
- 250ml (1 cup) lactose free milk (or, rice milk, coconut milk, hemp milk or almond milk)
- 2 large eggs (lightly beaten)
- 125g (1 cup) raspberries (fresh or frozen)
- 90g (1/2 cup) dark chocolate
- Dust with icing sugar (optional)
- Check buying, gluten free, and dairy free tips

Method

1. Roughly chop the dark chocolate. Preheat the oven to 190°C (375ºF) bake function and shift the oven tray rack to the centre of the oven.
2. Measure the dairy free spread (olive oil spread or butter) into a microwave safe bowl and soften for 20 seconds (until slightly warm but not melted). Place the gluten free self raising flour into a large bowl. Then add the dairy free spread (or butter) to the baking mix and rub it in using your figure tips. This gets a little bit messy but is great fun if baking with little ones… continue doing this until the mixture turns grainy with a few lumps and is well combined.
3. Lightly beat the 2 eggs in a separate small bowl. Then add the white sugar, milk (lactose free milk or alternative), eggs, guar gum/xanthan gum (or chia seed mixture), frozen raspberries, and dark chocolate to the baking mixture in the large bowl. Mix until it is just moistened.
4. Spray a muffin tray with cooking oil and spoon the mixture into the muffin cups.
5. Bake for 15 minutes and check to see if the centres are still gooey by using a metal or wooden skewer. If the skewer doesn't come out clean (has uncooked baking mixture on it - don't worry about melted chocolate) then bake for another 2 to 5 minutes. The outside of the muffins should be golden brown.
6. Let the muffins stand in the muffin tin for 5 minutes before transferring them to a baking rack to cool.
7. Serve warm if possible and dust with icing sugar (optional). Note: To reheat them, place the muffin in the microwave and heat on high for 20 seconds. These muffins also freeze really well. To reheat from frozen put them in the microwave for 20 seconds on high and then cut them in half and heat for another 20 seconds or until the chocolate goes gooey.
